## VL Series

The VL series is the standard set of actuators for Valtek control valves, providing precise control and reliable performance. With decades of experience and reliability, VL actuators have been known to be in service for over 30 years. Providing maximum thrust from a compact lightweight package, the VL cylinder has set the industry standard for two generations.

### Features and Benefits

Feature	Advantage
Wide Range of Options	A variety of options and accessories allow the VL cylinder to fit into almost any application requiring high thrust and low maintenance.
Compact and Lightweight	Using Aluminum cylinder construction, the VL cylinder is exceptionally compact and lightweight.
Simple Maintenance	Periodic maintenance is easy to perform. VL spring cylinder actuators only requires the removal of two parts to access all internal parts.
Simple Parts	Using standard O-rings for both static and dynamic seals, the VL cylinder actuator soft goods are lower cost and easier to find.

### Materials of Construction

Part	Material
Yoke	Phosphated, Painted Ductile Iron
Yoke Clamp	Stainless Steel
Yoke Clamp Bolts	Zinc Plated Steel
Stem Clamp*	Phosphated, Painted Ductile Iron
Cylinder Retaining Ring	Zinc Plated Steel
Actuator Stem	416 Stainless Steel
Stem Spacer	Aluminum
Actuator Stem Lock Nut	Zinc Plated Steel
O-Rings	Buna-N
Spring	Alloy Steel
Spring Button	Painted Steel
Adjusting Screw	Zinc Plated Steel
Piston	Anodized Aluminum
Bushings	Bronze, Oilite
Cylinder	Painted Anodized Aluminum

\*Stainless Steel material on 25 and 50 square inch

## VL-C Series

For applications where aluminum materials are not acceptable, Flowserve offers the compact, lightweight and high thrust of the VL-C carbon steel spring cylinder linear actuator. Offering identical springs and all the advantages of VL actuators, the VL-C actuator replaces all aluminum parts with carbon steel.

Offered in two styles, the size 25 and 50 square inch actuators use deep drawn cylinders while the size 100, 150, 200, 300 and 400 offers tie rod construction.

### Materials of Construction

Part	Material	
	Size 25 and 50	Size 100 and Larger
Yoke	Phosphated, Painted Ductile Iron	Phosphated, Painted Ductile Iron
Yoke Clamp	Stainless Steel	Stainless Steel
Yoke Clamp Bolts	Zinc Plated Steel	Zinc Plated Steel
Stem Clamp*	Stainless Steel	Phosphated, Painted Ductile Iron
Cylinder Retaining Ring	Zinc Plated Steel	—
Tie Rods and Nuts	—	Carbon Steel
Actuator Stem	416 Stainless Steel	416 Stainless Steel
Stem Spacer	Carbon Steel	Carbon Steel
Actuator Stem Lock Nut	Zinc Plated Steel	Zinc Plated Steel
O-Rings	Buna-N	Buna-N
Quad Seals	—	Buna-N
Spring	Alloy Steel	Alloy Steel
Spring Button	Carbon Steel	Carbon Steel
Adjusting Screw	Zinc Plated Steel	Zinc Plated Steel
Piston	Carbon Steel	Carbon Steel
Bushings	Bronze, Oilite	Bronze, Oilite
Cylinder	Zinc Plated, Painted Carbon Steel	Painted Carbon Steel
End Cap	—	Painted Carbon Steel

\*Stainless steel material on 25 and 50 square inch.

### Features and Benefits

Feature	Advantage
Carbon Steel Construction	Replaces all aluminum parts with carbon steel.
Simple maintenance	Periodic maintenance is easy to perform. VL-C spring cylinder actuator sizes 25 and 50 only requires the removal of two parts to access all internal parts.
Simple Parts	Using standard O-rings for both static and dynamic seals, the VL cylinder actuator soft goods are lower cost and easier to find.

## VL-UHC Series

For applications where ultra high cycle (UHC) life is needed, Flowserve offers the exceptionally long cycle of the VL-UHC series actuators. By replacing or modifying several parts used in the standard VL series actuator, the VL-UHC gains cycle lives previously thought unattainable.

### Features and Benefits

Feature	Advantage
Life Cycles	Expected lifespan of up to 2 million cycles!
Dynamic Quad Seals	All dynamic seals are quad seal design. This provides better lubrication and much longer life.
Plug Stem Jam Nut	Providing better alignment of the actuator stem and plug stem, the jam nut lengthens the life span of the bushings.
Same Simple Maintenance	Periodic maintenance is easy to perform. VL-UHC spring cylinder actuator only requires the removal of two parts to access all internal parts.
Recessed Adjusting Screw O-ring	Providing better alignment and sure sealing, the recessed adjusting screw O-ring lengthens the life of the actuator.
Thrust Bearing for the Spring	Thrust bearings prevent windup on the spring, lowering the stresses in the spring and giving it longer life.
Special Springs	Special springs with stronger materials and better finishes provide exceptionally long life spans.

### Expected Life Cycles

Actuator Size	Standard Design <sup>1</sup>	UHC Design <sup>2</sup>
25, Standard	500,000	2,000,000
25, Dual Spring	300,000	2,000,000
50, Standard	300,000	2,000,000
50, Extended	300,000	2,000,000
50, Dual Spring	300,000	2,000,000
100, Standard	300,000	2,000,000
100, Heavy Duty	150,000	2,000,000
100, Dual	150,000	2,000,000
200, Standard	300,000	2,000,000
200, Heavy Duty	150,000	2,000,000
200, Dual	150,000	2,000,000

1) Soft Goods should be replaced every 100,000 cycles

2) Soft goods should be replaced every 500,000 cycles

### Materials of Construction

Part	Material
Yoke	Phosphated, Painted Ductile Iron
Yoke Clamp	Stainless Steel
Yoke Clamp Bolts	Zinc Plated Steel
Stem Clamp*	Phosphated, Painted Ductile Iron
Cylinder Retaining Ring	Zinc Plated Steel
Actuator Stem	416 Stainless Steel
Stem Spacer	Aluminum
Actuator Stem Lock Nut	Zinc Plated Steel
O-Rings	Buna-N
Quad Seals	Buna-N
Spring	Alloy Steel
Spring Button	Painted Steel
Adjusting Screw	Zinc Plated Steel
Piston	Anodized Aluminum
Bushings	Bronze, Oilite
Jam Nut	Zinc Plated Steel
Thrust Bearing	Delrin
Cylinder	Painted Anodized Aluminum

\*Stainless Steel material on 25 and 50 square inch

## VL-ES Series

### Materials of Construction

Part	Material
Yoke	Phosphated, Painted Ductile Iron
Yoke Clamp	Stainless Steel
Yoke Clamp Bolts	Zinc Plated Steel
Stem Clamp	Phosphated, Painted Ductile Iron
Tie Rods and Nuts	Carbon Steel
Actuator Stem	416 Stainless Steel
Spring Connecting Rod	416 Stainless Steel
Actuator Stem Lock Nut	Zinc Plated Steel
O-Rings	Buna-N
Quad Seals	Buna-N
Spring	Alloy Steel
Spring Housing	Painted Carbon Steel
Spring Buttons	Carbon Steel
Spring Cap Bolting	Zinc Plated Steel
Piston	Anodized Aluminum
Bushings	Bronze, Oilite
Thrust Bearing	Delrin
Cylinder	Painted Carbon Steel
End Cap	Painted Carbon Steel

For applications where longer strokes or unusually high spring thrusts are required, Flowserve offers the VL-ES series actuators. Using many of the same design concepts as the VL-C, the VL-ES offers external spring cans. This allows for extra long springs which provide longer stroke lengths and extra force.

### Features and Benefits

Feature	Advantage
Life Cycles	Expected lifespan of up to 2 million cycles!
Dynamic Quad Seals	All dynamic seals are quad seal design. This provides better lubrication and much longer life.
Plug Stem Jam Nut	Providing better alignment of the actuator stem and plug stem, the jam nut lengthens the life span of the bushings.
Same Simple Maintenance	Periodic maintenance is easy to perform. VL-UHC spring cylinder actuator only requires the removal of two parts to access all internal parts.
Thrust Bearing for the Spring	Thrust bearings prevent windup on the spring, lowering the stresses in the spring and giving it longer life.
Special Springs	Special springs with stronger materials and better finishes provide exceptionally long life spans.

*Includes balanced; Mark One, Mark One-X, Mark Two, Mark Eight, Survivor, Mark 100, MegaStream, CavControl, ChannelStream, TigerTooth*

*Does not include metal bellows or bonnet extensions*

*Non-vertical mounting may require actuator support.*

*Maximum supply pressure is dependent on actuator mounting and connection strength.*

Flowserve Corporation has established industry leadership in the design and manufacture of its products. When properly selected, this Flowserve product is designed to perform its intended function safely during its useful life. However, the purchaser or user of Flowserve products should be aware that Flowserve products might be used in numerous applications under a wide variety of industrial service conditions. Although Flowserve can (and often does) provide general guidelines, it cannot provide specific data and warnings for all possible applications. The purchaser/user must therefore assume the ultimate responsibility for the proper sizing and selection, installation, operation, and maintenance of Flowserve products. The purchaser/user should read and understand the Installation Operation Maintenance (IOM) instructions included with the product, and train its employees and contractors in the safe use of Flowserve products in connection with the specific application.

While the information and specifications contained in this literature are believed to be accurate, they are supplied for informative purposes only and should not be considered certified or as a guarantee of satisfactory results by reliance thereon. Nothing contained herein is to be construed as a warranty or guarantee, express or implied, regarding any matter with respect to this product. Because Flowserve is continually improving and upgrading its product design, the specifications, dimensions and information contained herein are subject to change without notice. Should any question arise concerning these provisions, the purchaser/user should contact Flowserve Corporation at any one of its worldwide operations or offices.
